

Bracton Glasswasher Series

The new Bracton Series of multifunctional glasswashers includes our unique 3-minute soak cycle, combined with high-speed top & bottom wash/rinse arms – alleviating the requirement to scrub or soak glasses manually. Significantly saving on labour costs, this process also leaves the machine free from bacteria.

Five reasons why your next commercial glasswasher should be a Bracton;

European technology, European built to Bracton specifications.

Reduced labour costs- A high performance unit, which adds value by eliminating soaking and pre-washing. Auto start also reduces labour costs.

Optimum Results - All Bracton glasswashers have been specifically designed to remove the most difficult of products including milk, juice and lipstick ensuring that film / bacteria do not affect the quality or taste of your beverage and food service presentation.

Warranty - 12 months parts, 12 months labour.

Service - Bracton National Service Network providing assistance to the Bracton Standard.

Self Clean System - The Bracton BR Series is the most hygienic unit available. To further assist the dishwasher installation from a hygiene aspect, the BR Series is mounted on legs for ease of cleaning underneath.

We also offer a full range of dishwashers, see our website for full details.
